RESUME
of
Ken Heroy, P.E.
Jones – Heroy & Associates, Inc.

Ken Heroy received a Bachelors Degree in Civil Engineering from Louisiana Tech University in 1989. He received his license to practice as a professional engineer from the State of Texas in 1999 (Lic. No. [REDACTED]). After spending two years as a water engineer in the Peace Corps, he began his career in Texas in 1992 with the Texas Natural Resource Conservation Commission (now TCEQ) Creations and Bond Review Team. Mr. Heroy reviewed several district creations, more than 40 bond applications totaling over \$117,000,000, plus dozens of other miscellaneous applications from 1992 through 1995 while at the TCEQ. In January of 1996, Mr. Heroy went to work for the Texas Water Development Board (TWDB). At the TWDB, Mr. Heroy worked in the Office of Project Finance and Construction Assistance reviewing applications from cities and water districts for loans under the State Revolving Fund (SRF) program and the Economically Distressed Areas Program (EDAP).

In September of 1998 Mr. Heroy left state government for the private sector. Mr. Heroy spent 8 ½ years in engineering consulting, planning and designing master planned communities in central Texas before joining Sam Jones Consulting, Inc. on February 1, 2007. On May 1, 2009 the company's name was officially changed to Jones – Heroy & Associates, Inc.

Areas of Expertise:

- Water District Creations through the TCEQ under general law and the State Legislature under special law;
- Water District Financing, including issuance of bonds, contract tax, impact fees and other sources;
- Water District administration, including governance, operation and management;

Major Accomplishments (with TCEQ):

- Reviewed the engineering and economic feasibility of over 40 water district bond applications totaling over \$117,000,000 sold on the open market and approved by the TCEQ.
- Reviewed the engineering and feasibility for creation of several water districts and one municipal management district.
- Prepared and processed numerous miscellaneous type applications including surplus funds, escrow releases, fire plan, change order approvals, and emergency project approvals.
- Responded to outside requests from the public, board members and consultants for information and interpretation of state and local requirements related to water districts.
- Assisted in drafting and commented on proposed revisions to the water district rules (30 TAC §293) implementing legislative changes adopted in 1993 and 1995.
- Reviewed proposed legislation potentially affecting water districts during the 1993 and 1995 legislative sessions and drafted Bill Impact Statements.

Major Accomplishments – Jones-Heroy & Associates

- Creation of dozens of water districts through TCEQ
- Responsible for TCEQ approval of bond applications for hundreds of water districts across the state of Texas totaling over \$2Billion of water, wastewater, and drainage projects.
- Serve as District Engineer for over 60 water districts in central Texas.

Major Projects (previous experience as consulting engineer):

- Teravista - 1,500-acre master planned community in Williamson County MUDs Nos. 10, 11, and 15.
- Travis County MUD #15 - Creation application to TCEQ for creation of 670 acre MUD in City of Pflugerville.
- Northeast Travis County Utility District (NETCUD) - Creation through legislature of 375 acre district in City of Pflugerville ETJ.
- Villages of Hidden Lake – Project manager for 375 acre master planned community in NETCUD.
- Gabriels Bend – project manager for feasibility and planning for 261 acre subdivision in City of Leander ETJ.
- 973 Wastewater Co. – project manager for 0.95 MGD wastewater discharge permit application and processing through TCEQ.
- Whiskey Springs, City of Kerrville – project manager for planning and permitting of 800 acre master planned community with commercial, golf course, and single family lots.
- Lively Tract – project manager for feasibility and planning of a 438 acre development.

Professional Affiliations & Accomplishments

- Association of Water Board Directors (Advisory Council Member, TCEQ Regulatory Affairs liason, Vision Award recipient, 2021)
- Capital Area Suburban Exchange (CASE)
- Austin Contractors and Engineers Association
 - Chairman of 2007 Central Texas Infrastructure Design and Construction Symposium
 - Board Member, 2007-present (Treasurer 2009-2010, Vice President 2010-2011)
- Homebuilders Association of Greater Austin
 - September 2005 Associate of the Month
- American Rainwater Catchment Systems Association
- American Society of Civil Engineers

Eagle Scout

I am pleased to submit my qualifications. I have over 25 years of corporate marketing, economic development, government relations, executive level education, media, writing and client relationship management experience. This includes; new business development, professional fundraising, goal setting and strategic planning. I have researched and negotiated contracts with large corporate offices and ad agencies. Clients have included; Scott & White, St. David's, Seton, HEB, Lowes, Home Depot, CVS, McCoys, Tractor Supply, and Walmart. I was selected for the Hearst Media President's Club in 2017 for business development excellence among all Hearst Media properties nationally. I know the publisher of the Houston Chronicle and San Antonio Express News on a personal level. My extensive digital marketing, executive level public speaking, multi million dollar public sector budgeting, service as a former elected official, and legislative lobbying background would greatly enhance targeting and reach for City of Cuero initiatives.

I am a certified Utility Manager through the National Rural Water Association. I was appointed to the Lower Colorado River Authority Central Basin Council in 2015 and subsequently was appointed to currently serve in a public affairs capacity as an LCRA Ambassador. I attended the Texas Economic Development Council Sales Tax Workshop recently in San Antonio. I plan to attend the TEDC Basic Economic Development Course in February and begin the CEcD process. I have a master of public administration degree from Texas State University and was recognized as a member of Pi Alpha Alpha, the honor society for public affairs.

I am a Texas Certified Dispute Resolution Mediator and also a Google AdWords SEM and SEO Certified Representative. And, as a former school board trustee, I am also certified in the Texas Public Information and Open Meetings Acts. I also am proficient in Sales Force, Media Radar, Excel, Power Point, Frequency, Word, SEO, SEM and other social media.

I have many newspaper column bylines having written regular columns over ten years for several newspapers including the Victoria Advocate. I also have written campaign speeches and appeared on camera with several area news affiliates.

I have also served on two city commissions: the Taylor, TX Main Street Advisory/TIF Board and the Round Rock, TX Ethics Commission. Additionally, I was appointed to serve as a civilian assessor on the Round Rock Police Department Officer's Promotions Panel. I have been through the training for the Texas Main Street Program. I currently serve on the Taylor Main Street Board(past chair)as we have been very instrumental in the economic revitalization of downtown Taylor.

I was elected to the Round Rock ISD Board of Trustees serving from 2009-2012. The district comprises 50,000 students and 5,500 employees. As school board trustee for the twentieth largest school district in the state with five high schools and over fifty campuses combined, I helped manage and approve an annual public sector budget of over

350 million dollars and well over a billion dollars of taxpayer funds cumulatively. The district was only one of seven in the state to receive a Moody's AAA bond rating during my tenure as trustee. This level of educational executive management requires consistently researching the many issues that concern all stakeholders and demographics in the district and fostering a positive innovative relationship between the district, developers, municipalities, chambers of commerce, and the community through public information. I have also participated in many legally posted closed executive sessions under the Open Meetings Act.

I speak in front of large groups quite frequently. I also have undergraduate and graduate statistics coursework and have spent a great deal of time at the Capital building while lobbying for higher education funding while serving as an elected official. I also participated in a Texas Association of School Boards Legislative Clinic which allowed for testifying before the Texas House Education Committee as an exercise in government policy.

I attended the Texas Association of School Boards convention as RRISD delegate in 2011 and chaired the RRISD Policy Committee in 2011-12. I was the RRISD representative on the Capital Area Council of Governments 2010-2011.

I am an alumnus of Leadership Round Rock, Georgetown and Hutto programs. I served as a Taylor Chamber of Commerce Ambassador and more recently as a San Antonio Chamber of Commerce Ambassador. Additionally, I currently serve as Central Texas I-10 Community Alliance Past President. The Alliance is a consortium of chambers of commerce(including Cuero), CVB's, economic development corporations and the private sector, advancing economic development and heritage tourism along the I-10 Corridor. I helped plan and I was the moderator at the Alliance sponsored 2018 I-10 Alliance Growth Summit in Sealy with program speaker State Senator Lois Kolkhorst.

My master's thesis is on file at the Texas State Library and has been downloaded over 1000 times in the last three years. I developed and administered a detailed survey instrument for the 80 page thesis. I have great organizational, management and editing skills and more importantly I can juggle multiple projects and meet deadline. How can I help?

I am a Bay City High School graduate and I know the area very well.

Sincerely,
Bobby Seiferman
